   a) Impression material used in conservative dentistry.

   b) Posterior composite resin.

   c) Studies in relation to formation of dental caries.

   d) Methods of pain control during operative procedures.

CENTRAL LIBRARY

126 / 09

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2009

Paper : I

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Discuss pathophysiology of pulp. 20

2. What are the forces acting on class II inlay and factors affecting it? 20

3. Write short notes on the following : 5 x 6
   a) Management of mercury toxicity.
   b) Oral microflora.
   c) Saliva and its role in dental caries.
   d) Non carious cervical lesions.
   e) Vitamin D – Deficiency.

4. Answer briefly on the following : 4 x 7½
   a) Bone morphogenic proteins.
   b) Physiology of dental pain.
   c) Prefabricated posts.
   d) Anatomical considerations of teeth in endodontic treatment.

Guru Nanak Institute of Dental Sciences & Research
CENTRAL LIBRARY
Kolkata

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2019

Paper : III

Full Marks : 100

Time : 3 Hours

Attempt all questions

1. Critically discuss the management of endodontic mishaps in light of recent advances. 20

2. Discuss various factors responsible for failure for root canal treatments. 20

3. Write short notes on the following : 5 x 6

a) Apex locators.

b) Role of surgical operating microscope in endodontics.

c) Endodontic implants.

d) Vertical root fracture.

e) Re-treatment in endodontics.

4. Answer briefly on the following : 4 x 7½

a) Sterilization of endodontic instruments.

b) Cleaning and shaping of curved canals.

c) MTA.

d) Endo perio lesions.

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2010

Paper : I

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Discuss cystic lesions of the oral cavity. 20

2. Discuss composition and functions of saliva and its role in relation to dental caries. 20

3. Write short notes on the following : 5 x 6
   a) Prevention of dental caries.
   b) Hypo–plastic enamel.
   c) Oral micro–flora.
   d) Trigeminal nerve.
   e) Radiation Hygiene.

4. Answer briefly on the following : 4 x 7½
   a) Dentinal tubules.
   b) Physiology of self cleaning phenomenon.
   c) Physiology of Dental Pain.
   d) Role of drugs in Conservative Dentistry & Endodontics.

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2010

Paper : III

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Justify the methodology of disinfection in Endodontics in context to root canal flora. 20

2. Justify significance of contemporary Endodontics in relation to therapeutic success. 20

3. Write short notes on the following : 5 x 6
   a) Laser Doppler flowmetry.
   b) Endodontic Radiography.
   c) 'C' shaped canals.
   d) Endodontic flare ups.
   e) Laser in endodontics.

4. Answer briefly on the following : 4 x 7½
   a) Standardization of root canal instruments.
   b) Determination of apical terminus.
   c) Apical patency and its preparations.
   d) 'T' lymphocytes in periapical granuloma: role & clinical significance.

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2010

Paper : IV

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Write an essay on : 1 x 100

a) Management of non carious lesions of teeth.

or

b) Critically analyse occlusion and its importance in yours speciality.

Central Library

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2010

Paper : II

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Discuss veneers in Conservative Dentistry. 20

2. Discuss in detail about the management of Hypersensitive dentin. 20

3. Write short notes on the following : 5 x 6
   a) Metal Die.
   b) Bond strength.
   c) Hygroscopic explanation.
   d) Percolation.
   e) Disinfection of Impressions.

Govt. Dental College & Hospital
CENTRAL LIBRARY
Kolkata-700 106

4. Answer briefly on the following : 4 x 7½
   a) Defects in casting.
   b) Various rotary devices for tooth cutting.
   c) Factors in terms of fracture of amalgam restoration.
   d) Bleaching procedure for non vital teeth.

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2011

Paper : III

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Discuss blade designs of various NI-TI rotary instruments. 20

2. Discuss various methods of biomechanical preparation of complex anatomical variations. 20

3. Write short notes on the following : 5 x 6
   a) MTA.
   b) Magnifications in endodontics.
   c) Apex locator.
   d) Intracanal Medicaments.
   e) Endodontic hand pices.

4. Answer briefly on the following : 4 x 7½
   a) Root apicies.
   b) Management of narrow carved canal.
   c) Different types of root resorptions : give management of extra canal invasive root resorption.
   d) Root canal irrigants.

Attempt all questions

1. Write an essay on : 1 x 100

a) Single visit endodontics.

or

b) Advanced novel molecular techniques for detection of microbiology of endodontic disease.

Central Institute of Dental Sciences & Hospital
CENTRAL LIBRARY
Kolkata-700 026

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2011

Paper : II

Full Marks : 100
Time : 3 Hours

4

Attempt all questions

1. Discuss class II inlay preparation in lower first molar. 20

2. Discuss recent update of glass Ionomer cement. 20

3. Write short notes on the following : 5 x 6
   a) Sialarane.
   b) Secondary caries.
   c) Caries vaccine.
   d) Mano leakage.
   e) Inlay max.

4. Answer briefly on the following : 4 x 7½
   a) Marginal integrity of composite resin.
   b) Radiation caries.
   c) Morphalgical changes of laser etching of tooth structure.
   d) Reasons for failure of CL II amalgam restorations.

Guru Nanak Institute of Dental Sciences & Research
CENTRAL LIBRARY

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2012

Paper : I

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Describe histology of enamel & dentin in a disease-free nature permanent tooth. 20

2. Discuss analgesics and antiinflammatory drugs, specifically related to their mechanism of action and contra indications. 20

3. Write short notes on the following : 5 x 6
   a) Root caries.
   b) Fluoride containing restorative materials.
   c) Medical model of dental caries treatment.
   d) Dentinogenesis imperfecta.
   e) Biofilms.

4. Answer briefly on the following : 4 x 7½
   a) Biocompatibility of dental cements.
   b) Endodontic treatment in medically comprised patients.
   c) Patho-physiology of periapical cyst initiative expansion & heading.
   d) Role of saliva in enamel demineralization & remineralization.

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2012

Paper : III

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Justify the role of Do's and dont's in relations to success & fail uses in the field of endodontics. 20

2. Discuss recent concept & development in instruments & instrumentation in the field of endodontics. 20

3. Write short notes on the following : 5 x 6
   a) MTAD.
   b) Steam cells.
   c) Pulpal diagnosis.
   d) Operating Microscope.
   e) Reciprocating system.

4. Answer briefly on the following : 4 x 7½
   a) Importance of radiography in endodontics.
   b) Role of local anaesthesis in endodontics.
   c) Philosophy of root canal disinfection.
   d) Radix entomolaris.

Paper : I

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Discuss white lesions of oral cavity. 20

2. Discuss physiology of occlusions. 20

3. Write short notes on the following : 5 x 6
   a) Hat tooth.
   b) Remineralization.
   c) Root caries.
   d) Apical foraminas.
   e) Trigeminal Neuralgia.

4. Answer briefly on the following : 4 x 7½
   a) Role of different acids on enamel.
   b) Physiology of attrition.
   c) Steam cells.
   d) Attachment apparatus of tooth.

Dr. B.R. Ambedkar Institute of Dental Sciences & Hospital

The West Bengal University of Health Sciences

Paper : IV

Full Marks : 100
Time : 3 Hours

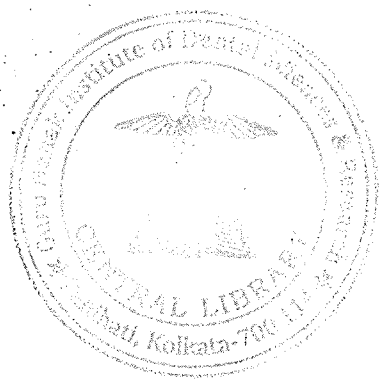
Attempt all questions

1. Write an essay on : 1 x 100

a) Regenerative Endodontics.

or

b) Management of Non carious lesion of teeth.



The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2012

Paper : II **Full Marks : 100**

Time : 3 Hours

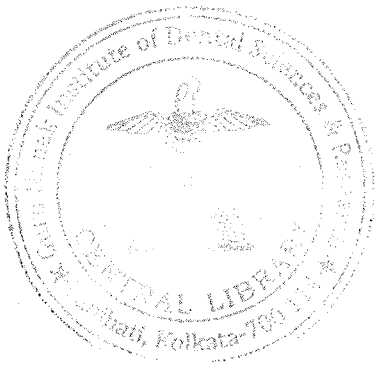
Attempt all questions

1. Discuss modern concepts and cavity designs for CL II amalgam restoration as compared to Black's principles of tooth preparation. 20

2. What are the different indirect restorations for inlay/onlay in posterior teeth? Discuss the advantages & disadvantages of each & enumerate the retentions & resistance form to be used when mesio-lingual cusp is missing in a vital mandibular 1st molar. 20

3. Write short notes on the following : 5 x 6
   a) Self retaining matrix systems.
   b) Methods to compensate casting shrinkage.
   c) Dentine pins : Types, Indications, placement guidelines & techniques.
   d) Esthetic treatment options for fluorosed anterior teeth.
   e) Classify Glass-ionomer element & their indication for use.

4. Answer briefly on the following : 4 x 7½
   a) Methods of taking rubber base impression for indirect restorations.
   b) Tarnish & Corrosion in silver amalgam restoration.
   c) Causes & treatment of dentinal hyper-sensitivity.
   d) Artistic elements of smile-design.



CENTRAL LIBRARY

The West Bengal University of Health Sciences

1. Describe histology of enamel & dentin in a disease-free nature permanent tooth. 20

2. Discuss analgesics and antiinflammatory drugs, specifically related to their mechanism of action and contra indications. 20

3. Write short notes on the following : 5 x 6
   a) Root caries.
   b) Fluoride containing restorative materials.
   c) Medical model of dental caries treatment.
   d) Dentinogenesis imperfecta.
   e) Biofilms.

4. Answer briefly on the following : 4 x 7½
   a) Biocompatibility of dental cements.
   b) Endodontic treatment in medically comprised patients.
   c) Patho-physiology of periapical cyst initiative expansion & heading.
   d) Role of saliva in enamel demineralization & remineralization.

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2013

Paper : I

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Discuss development, anatomy, morphology, blood and nerves supply of tongue. 20

2. Discuss infection control and self protection in dental clinical set-up. 20

3. Write short notes on the following : 5 x 6
   a) Enamel organ and its functions.
   b) Describe various routes of drug administration.
   c) Orofacial pain.
   d) Mechanisms of blood clotting.
   e) Blood groups and their significance.

4. Answer briefly on the following : 4 x 7½
   a) Role of nutrition in prevention of dental diseases.
   b) Modern methods of sterilization of endodontic instruments.
   c) Amelogenesis Imperfecta.
   d) Calcium metabolism.

Dental College Library

126 / 13

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2013

Paper : III

Full Marks : 100
Time : 3 Hours

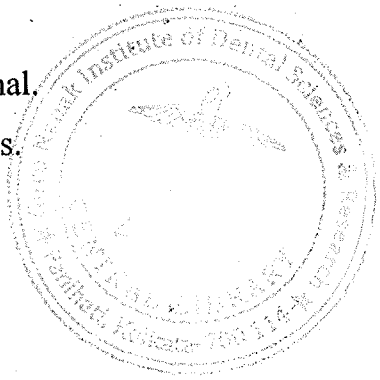
Attempt all questions

1. Describe the modern strategies in root canal disinfection. 20

2. Restoration of endodontically treated teeth. 20

3. Write short notes on the following : 5 x 6
   a) Endodontic Biofilm.
   b) Cracked tooth syndrome.
   c) Ferule effect.
   d) Apex locators.
   e) Root canal classification.

4. Answer briefly on the following : 4 x 7½
   a) Endodontic – periodontal lesions.
   b) Recent advances in obturating materials of root canal.
   c) Relevance of multiple visits in modern Endodontics.
   d) Retrograde filling material.



126 / 13

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2013

Paper : II

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Describe forces acting on class II inlay. 20

2. Discuss dentin hypersensitivity in detail. 20

3. Write short notes on the following : 5 x 6
   a) Gingival tissue management.
   b) Isolation in conservative dentistry.
   c) Methodologies to detect Microleakage.
   d) Pit and fissure sealants.
   e) Flares and Bevels in cast restorations.

4. Answer briefly on the following : 4 x 7½
   a) 'C' factor and its clinical significance.
   b) Role of fluorides in caries prevention.
   c) OSHA guidelines of self protection.
   d) Importance of Bevels and Feares in Inlay cavity Preparation.

1. Write an essay on : 1 x 100

a) Lasers in conservative dentistry & Endodontics.

or

b) Development of Endodontic instruments.

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2014

Paper : I

Full Marks : 100
Time : 3 Hours

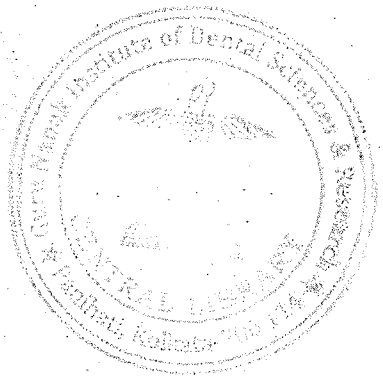
Attempt all questions

1. Discuss development, formation, structure chemical composition and physical properties of enamel 20

2. Mention role of saliva and various topical agents in control of dental caries. 20

3. Write short notes on the following : 5 x 6
   a) Effect of ageing on deatal tussues.
   b) Fluride recharge.
   c) Lasers used for hard dental tissue.
   d) Biofilm.
   e) Muscle of mastication.

4. Answer briefly on the following : 4 x 7½
   a) Evidence based dentistry.
   b) Radiation Hazards.
   c) Vit D Metabolism.
   d) Restoration margin and biologic width.



The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2014

Paper : III

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Discuss the effect of design and dimension of endodontic instrument on effective root cana. preparation. 20

2. Discuss success of retrograde obturation with reference to newer material. instruments and methods. 20

3. Write short notes on the following : 5 x 6
   a) Radix.
   b) Operating microscope.
   c) Residual Gutta percha in post space preparation.
   d) Management of avulsed tooth.
   e) Root canal sealers.

Substantially Refer to

4. Answer briefly on the following : 4 x 7 =
   a) Endodontic emergency.
   b) Single sitting Rct.
   c) Age factor in endodontics.
   d) Balanced force technique.

Time : 3 Hours

Attempt all questions

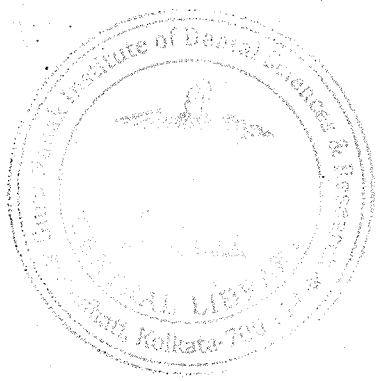
1. Discuss development, anatomy, blood supply and nerve supply of tongue. 20
2. Write about the antibiotics in management of dental and oral infections with special emphasis on recent development.
3. Write short notes on the following : 20
   a) Oral microbiota. 5 x 6
   b) Coagulation of blood.
   c) Management of dental pain in pregnancy.
   d) Attachment apparatus of tooth.
   e) Blood groups and their significance.

4. Answer briefly on the following : 4 x 7½
   a) Saliva and its role in dental caries.
   b) Diabetes and dental procedure.
   c) Laser hazards and protection.
   d) Local anaesthesia.



126 / 16

The West Bengal University of Health Sciences
MDS (Conservative Dentistry & Endodontics) Examination, 2016

Paper : I

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Write in brief the different developmental defects of teeth and their treatment protocol. 20

2. Define caries. Write down the role of saliva and oral prophylaxis in control of dental caries. 20

3. Write short notes on the following : 5 x 6
   a) Non carious cervical lesions.
   b) Apical constriction.
   c) Trigeminal neuralgia.
   d) CBCT.
   e) Histopathology of Primordial cyst.

4. Answer briefly on the following : 4 x 7½
   a) Modern Antibiotics.
   b) Stem cells.
   c) Contact points and their importance.
   d) Fluoride delivery systems.

126 / 16

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2016

Paper : III

Full Marks : 100
Time : 3 Hours

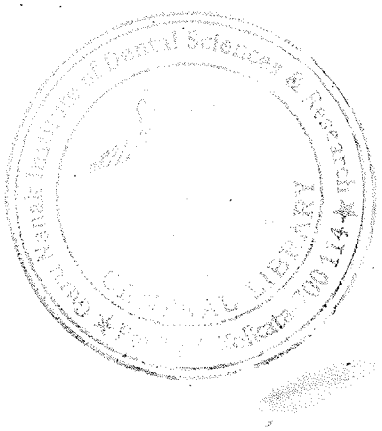
Attempt all questions

1. Discuss root canal disinfection with reference the development in material medicament and their delivery system. 20

2. Justify the important factors to do and don'ts for successful endodontic procedures. 20

3. Write short notes on the following : 5 x 6
   a) Importance of magnification in endodontics.
   b) Calcified canal.
   c) Monobloc concept in endodontics.
   d) Important criteria for access cavity preparation.
   e) Apex locator.

4. Answer briefly on the following : 4 x 7½
   a) Different types of post.
   b) Injectable Gutta Percha.
   c) Sterilization protocol in endodontics.
   d) PRF.



THE WEST BENGAL UNIVERSITY OF HEALTH SCIENCES

MDS (Conservative Dentistry and Endodontics) Examination—2016

Paper –III

Full Marks: 100

Time: 3 hours

Attempt all question

1. Discuss obturating materials and techniques 20

2. Discuss root canal disinfection with reference the development in materials, medicaments and their delivery systems 20

3. Write short notes on-- 5X6

a) Apex locator

b) Blunderbuss canal

c) Radiographic imaging in endodontic treatment

d) Monobloc concept in endodontics

e) Instrumentation in access cavity preparation

4. Answer briefly on the following— 5X6

a) Post space

b) Dentine hypersensitivity

c) Bone graft material

d) S Shaped root canal

e) Hemi-section of tooth

126 / 16

Paper –II

Full Marks: 100

Time: 3 hours

Attempt all question

1. What are veneers and laminates? Discuss indications contraindications, materials and methods of fabrication and placement of laminates and veneers. 20

2. Introduction of new restorative materials has influenced designing and instrumentation of tooth preparation. 20

3. Write short notes on— 5X6

a) Pin retained amalgam

b) Die material

c) Mercury toxicity

d) Caries vaccin

e) Shrinkage control in composite resin restoration

4. Answer briefly on the following— 5X6

a) Non carious cervical lesion

b) Finishing and polishing of cast metal restoration

c) Repair of esthetic restoration

d) Crown lengthening

e) CAD-CAM

(R)

THE WEST BENGAL UNIVERSITY OF HEALTH SCIENCES

MDS (Conservative Dentistry and Endodontics) Examination—2016

Paper –I

Full Marks: 100

Time: 3 hours

Attempt all question

1. Describe various developmental defects of tooth and their effect on treatment planning and procedures 20

2. Discuss diagnosis and management of medical emergencies in dental office. 20

3. **Write short notes on-** 5X6

a) Biofilm

b) Pathway of dental pain

c) Fluoride delivery systems

d) CBCT

e) Trigeminal neuralgia

4. **Answer briefly on the following::** 5X6

a) Biomimetic material

b) Temporo-mandibular joint

c) Modern antibiotics

d) Attachment apparatus of tooth

e) Muscles of facial expression

Guru Nanak Institute of Dental Science & Research
CENTRAL LIBRARY
Kolkata-700

126 / 17

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2017

Paper : I

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Discuss physiology of pain in orofacial region. 20

2. Enumerate medical emergencies in dental practice. Discuss the management of the same. 20

3. Write short notes on the following : 5 x 6
   a) Sterilization of Hand piece and burs used in dental practice.
   b) Factors influencing wound healing.
   c) Anti biotics used in dental infections.
   d) Tongue.
   e) Management of patient with anti coagulant therapy.

4. Answer briefly on the following : 4 x 7½
   a) Caries vaccine.
   b) Biomimetic substances & their role in conservative dentistry.
   c) Shock : its type and pharmaco therapy.
   d) Stem cells.

126 / 17

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2017

Paper : III

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Briefly describe various types of N1T1 instruments along with their advantages and disadvantages in cleaning & shaping procedure in different root canals. 20

2. Endodontic Microsurgery. 20

3. Write short notes on the following : 5 x 6
   a) CM-wire and M wire N1-T1 alloy as endodontic rotary instruments.
   b) Conventional access cavity and modern access cavity for root canal therapy.
   c) Concepts monoblock in endodontics.
   d) Laser Doppler flowmetry.
   e) Functional behaviour of endodontically treated tooth with post & core.

4. Answer briefly on the following : 4 x 7½
   a) Apical seal of root canals.
   b) Pulp periodontal problems.
   c) Estimation of canal curvature and its management during cleaning & shaping procedure.
   d) Mechanism of functioning different types of electronic apex locators.

.26 / 17

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2017

Paper : IV

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Write an essay on : 1 x 100

   a) Discuss various fracture predilection of tooth structure that are to be considered before treatment.

or

   b) Regenerative Endodontics.

126 / 17

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2017

Paper : II **Full Marks : 100**

Time : 3 Hours

Attempt all questions

1. Discuss Adhesive restorations in different dental conditions. 20

2. Describe in details the current concepts of on bleaching of vital and nonvital teeth. 20

3. Write short notes on the following : 5 x 6
   a) Non rotary instruments / Equipments for cavity preparation.
   b) Circumferential tie for cast inlay.
   c) Investment materials.
   d) Microleakage : its significances & methods for detection.
   e) Free water and bound water in dentin.

4. Answer briefly on the following : 4 x 7½
   a) Recent development of composite & GIC.
   b) Hand cutting instruments.
   c) Osha Guide lines for self protection.
   d) Caries detection methods.

Govt. Dental College & Research Institute
CENTRAL LIBRARY
Kolkata-700 114

The West Bengal University of Health Sciences
MDS (Conservative Dentistry & Endodontics) Examination, 2018

Paper : I

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Discuss Development, Histology, Blood Supply innervation and age changes in dental pulp. 20

2. Classify local anaesthetics. Describe the pharmacology of local anaesthetics used in dentistry. Mention the methods of enhancing success in local anaesthesia. 20

3. Write short notes on the following : 5 x 6
   a) Blood group and their significance.
   b) Vit D. metabolism.
   c) Management of Mercury Toxicity.
   d) Biofilm.
   e) Laser hazards & protection.

4. Answer briefly on the following : 4 x 7½
   a) Muscle of mastication.
   b) White lesions in oral mucosae.
   c) Developmental defects of Enamel.
   d) Salivary enzymes.

126 / 18

The West Bengal University of Health Sciences
MDS (Conservative Dentistry & Endodontics) September Examination, 2018

Paper : I

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Facial Nerve: course & distribution. 20

2. Describe developmental disturbances & age changes of Enamel & dentin. 20

3. Write short notes on the following : 5 x 6
   a) Dental burs.
   b) Management of a patient with diabetis & hypertension in clinical practice.
   c) Occlusion & TMJ dysfunction.
   d) Physiology & referred pain in oro facial region.
   e) Post space preparation.

4. Answer briefly on the following : 4 x 7½
   a) Cross infection in dental office.
   b) CBCT as diagnostic in this speciality.
   c) Syncope.
   d) Salivary glands.

126 / 18

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2018

Paper : III

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Discuss analytically various rotary N1-T1 Instrumentation systems that are presently available for cleaning & shaping procedure of root canals. 20

2. Critically analyse conventional Endodontic surgery with Endodontic micro surgery. 20

3. Write short notes on the following : 5 x 6

   a) Austenite, martensite & R phase of N1-T1 Alloy.

   b) Recent concepts of access preparation for Root canal system.

   c) Palatogingival grooves.

   d) Gutta flow & AH plus as root canal sealers.

   e) Middle distal canal.

4. Answer briefly on the following : 4 x 7½

   a) Behaviour of Intact tooth and tooth restored with Port and care in function.

   b) Effect of coronal seal on apical periodontium.

   c) Problems associated with different types of apex locator.

   d) Various Irrigation systems of root canals.

126 / 18

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2018

Paper : IV

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Write an essay on : 1 x 100

a) Discuss concept of growing pulp dentin complex in a non vital tooth.

or

b) Discuss various probabilities/factors which may culminate into damage/fracture of tooth during conservative treatment or endodontic therapy.

Dental Institute of Dental Sciences & Hospital
CENTRAL LIBRARY
Kolkata

126 / 18

The West Bengal University of Health Sciences
MDS (Conservative Dentistry & Endodontics) September Examination, 2018

Paper : IV

Full Marks : 100
Time : 3 Hours

1. Write an essay on : 1 x 100

a) Management of iatrogenic eadodontic events.

or

b) Describe minimally invasive concepts in restorative dentistry.

Guru Nanak Institute of Dental Sciences & Research
CENTRAL LIBRARY
Panihati, Kolkata-700 114

126 / 18

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2018

Paper : II

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Critically analyse dentin bonding agents and recent methods of enhancing resin dentin bonds. 20

2. Alloys used for cast restorations. 20

3. Write short notes on the following : 5 x 6
   a) Castable ceramic.
   b) Toughening mechanism of dentin.
   c) Die fabrication.
   d) Curing lights.
   e) Designs and features of Inlay cavities.

4. Answer briefly on the following : 4 x 7½
   a) Veneers.
   b) Gingival tissue managements during various restorative procedures.
   c) Dentinal hypersensitivity : theories and management.
   d) Three dimensions of color and its clinical significances.

126 / 18

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) September Examination, 2018

Paper : II

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Caries vaccine: Concepts & application. 20

2. Dental ceramics: different type & usage. 20

3. Write short notes on the following : 5 x 6
   a) Luting agents.
   b) Skirts & collar preparation.
   c) Inlay waxes.
   d) Giomer.
   e) Etching of detain.

4. Answer briefly on the following : 4 x 7½
   a) Smile designing.
   b) Recent advantages of composite resin.
   c) Methods to prevent caries.
   d) Casting shrinkage compensation.

126 / 19

The West Bengal University of Health Sciences
MDS (Conservative Dentistry & Endodontics) Examination, 2019

Paper : I **Full Marks : 100**
Time : 3 Hours

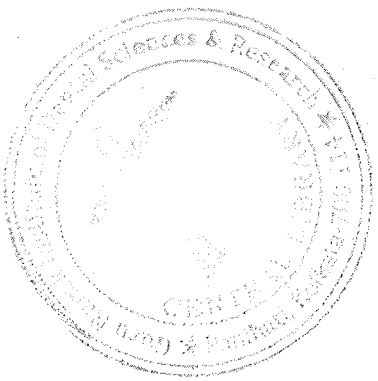
Attempt all questions

1. Discuss dental caries vs Saliva. 20

2. Discuss various medical emergencies that are managed in day to day clinical practice. 20

3. Write short notes on the following : 5 x 6
   a) Muscles of facial expression.
   b) C shaped canal.
   c) Articular disc of TMJ.
   d) Properties of laser as utilised in dentistry.
   e) Age changes of pulp.

4. Answer briefly on the following : 4 x 7½
   a) Stem cells in oro facial region.
   b) Cystic lesions in oral cavity.
   c) OSHA Guidelines for personal protection in clinical practice.
   d) Dentinogenesis imperfecta.



126 / 19

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2019

Paper : II

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Concepts of Bleaching Vital & non vital tooth. 20

2. Recent development of composite resin. 20

3. Write short notes on the following : 5 x 6
   a) Management of dentinal hypersensitivity.
   b) Addition condeasation silicon as Impression material.
   c) Types of VENEERS and tooth preparation.
   d) Smart GIC.
   e) Factors affecting tooth preparation.

4. Answer briefly on the following : 4 x 7½
   a) Cl II ceramic Inlay.
   b) Fracture resistance of yttrium stabilised zirconia.
   c) Circumferential tie.
   d) Dentin bonding agents.

126 / 19

The West Bengal University of Health Sciences
MDS (Conservative Dentistry & Endodontics) Examination, 2019

Paper : III

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Briefly narrate different factors to be considered for the success of Revascularisation of non vital tooth. 20

2. Discuss development of N1-T1 instruments that are used in endodontics. 20

3. Write short notes on the following : 5 x 6
   a) Biodentine.
   b) Root end resection.
   c) Preparation of PRP.
   d) Chlorhexidine as irrigant.
   e) Optical coherence tomography.

4. Answer briefly on the following : 4 x 7½
   a) Continuous rotation vs reciprocating rotation in cleaning & shaping of Root canals.
   b) Single file vs multiple file system of instrumentation.
   c) Efficient irrigation vs intra canal medication.
   d) Balanced force vs watch winding technique.

126 / 19

The West Bengal University of Health Sciences

MDS (Conservative Dentistry & Endodontics) Examination, 2019

Paper : IV

Full Marks : 100
Time : 3 Hours

Attempt all questions

1. Write an essay on : 1 x 100

   a) Discuss conventional RCT vs REP.

   or

   b) Composite resin-boon or ban in restorative dentistry.

Post Graduate Institute of Dental Sciences & Research
CENTRAL LIBRARY
Panchati, Kolkata-700 114

249 / 20

The West Bengal University of Health Sciences

MDS Part I October, 2020 Examination

Conservative Dentistry & Endodontics

Time : 3 Hours **Full Marks : 100**

Attempt all questions

1. Discuss different systemic conditions to be considered in dental practice. 10
2. Narrate the mechanism of clotting of blood. 10
3. Discuss the major muscles of masticatoryapparatus. 10
4. Give distribution of Facial Nerve. 10
5. Justify "Pain of pulpal origin is referred in nature and never crosses the midline." 10
6. Mention role of saliva in oral cavity in nutshell. 10
7. Discuss Amelogenesis in brief. 10
8. Discuss the stem cells in oro-facial region. 10
9. What are the OSHA guidelines for personal protection in clinical practice? 10
10. What are the cystic lesions in oral cavity: briefly narrate. 10

273 / 21

The West Bengal University of Health Sciences
MDS Part II April-May, 2021 Examination
Conservative Dentistry & Endodontics

Paper : III

Time : 3 Hours
Full Marks : 100

*Attempt **any two** questions*

1. Discuss the concept of growing pulp-dentin complex in a non-vital tooth. 50

2. Ceramics used in dentistry with the concept in recent advances. 50

3. Evaluation of N1-T1 instruments for cleaning & shaping of Root Canals. 50
